ADVERTISEMENTS.

If you seek for information,
You may find it in this wise,
By looking through the pages
Of those who advertise.

And remember as you thus search,
Did these pages not appear,
The book's price would be double
What we ask you for it here.

And so we give our blessing
To the men who advertise,
And urge that every student
These firms now patronize.

GRANDPA WISEACRE to Juvenalis Observanda.—Who was Archimedes, my boy?

JUVENALIS OBSERVANDA.—Archimedes was the most celebrated geometrician of antiquity; but he was not up to date by several cycles of majority.

GRANDPA (in astonishment).—Why, what was the matter with him?

JUVENALIS (triumphantly).—Archimedes might easily have gotten that move on the earth if he had only possessed "a truss-frame," like my new Fowler bicycle.

**

THE FOWLER is not only the strongest, but the most highly finished bicycle in the world. When you see a high grade bicycle with a TRUSS frame you KNOW it is a Fowler.
