What are ePortfolios?

- An online compilation of an individual student's work that shows what a student has learned;
- Or "artifacts" such as writing or videos to be assessed by instructors;
- Or a collection of selected evidence that demonstrates a student's competencies that can be used in a job search.

Why use ePortfolios?

- Assessment – students submit a body of work using the portfolio for instructor review
- Reflection -- students discuss their body of work or their overall ideas about what they are studying
- Document student learning – showcase what students have learned
- Professional development & job searches – portfolios can be shared with potential employers or other interested parties
